## TOKEN OVERVIEW

**FOSSILS** is a community-based project with the potential to become a cornerstone of the decentralized world. The project has an experienced team, revenue-generating utilities, and an energetic community. With the passionate team and community, we are well situated to provide or deliver unique utilities and as well approachability for the investors in the crypto space.

**FOSSILS** is a deflationary token with successive milestone burn feature. It is deployed on the Binance network.

With the clear vision to create and maintain the most sustainable strong token on the Binance Network, both the contract and project were created by the FOSSILS Team.

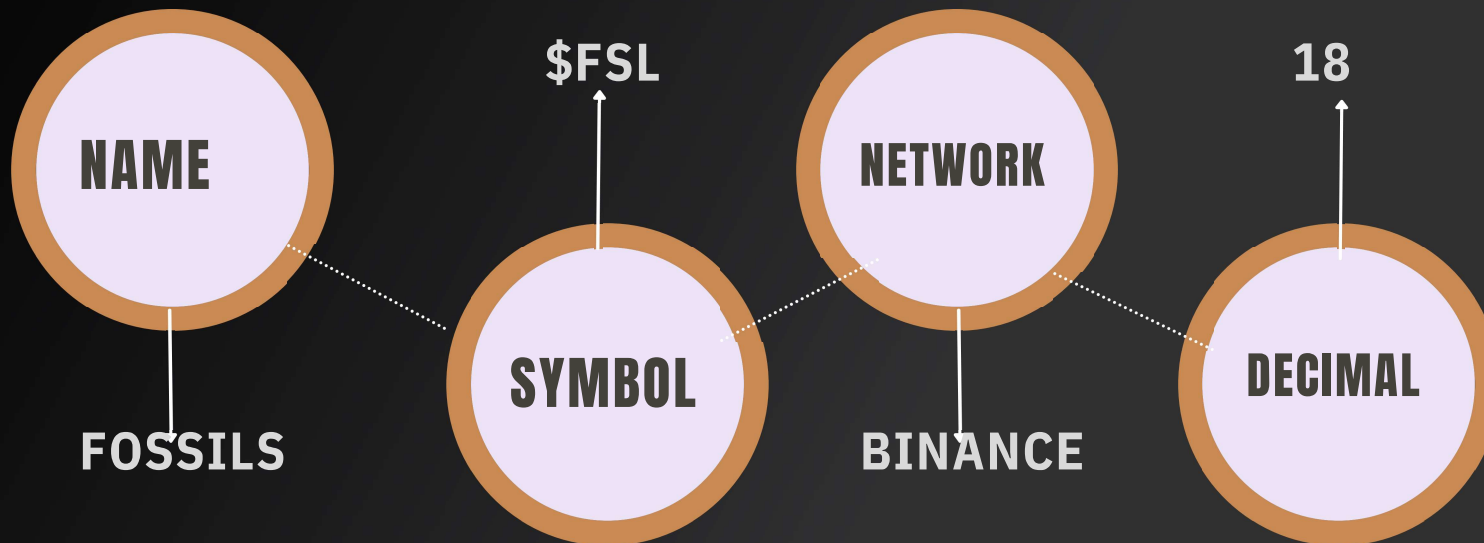

# TOKENOMICS
